

AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

UNITED STATES DISTRICT COURT FOR THE DISTRICT OF NORTH RIVERTON

I, Dana Whitlock, a Special Agent with the Riverton Field Office, being duly sworn, state as follows:

1. I have been a Special Agent since 2017. I have received training in the examination of mobile devices and in the review of extraction reports produced by forensic tools.
2. This affidavit is submitted in support of an application to search a Samsung Galaxy phone recovered from MARK TELLER on March 4, 2026 (Device 1) and an Apple iPhone recovered from IRINA VOSS on the same date (Device 2).
3. A forensic extraction of Device 1 was performed on March 6, 2026. The extraction report lists a WhatsApp account with the handle @northstar. Based on my review, the account @northstar was used by MARK TELLER.
4. On March 5, 2026 at approximately 2:31 a.m., the user of @northstar sent a message to the user of Device 2 stating that the tickets were ready and that the meeting would take place at the parking structure on Delmar Avenue.
5. I believe the word tickets in this message is a code word for a quantity of controlled substances. In my training and experience, persons engaged in distribution commonly use event-related words such as tickets, seats or passes to refer to narcotics in order to avoid detection by law enforcement.
6. Device 1 and Device 2 exchanged 214 messages between February 1, 2026 and March 4, 2026. No messages between the two devices were found after March 4, 2026.
7. On March 7, 2026, a second extraction was attempted on Device 2. The examiner reported that the attempt produced a logical extraction only, and that a file system extraction could not be completed because the device was locked. The examiner further reported that the WhatsApp database on Device 2 contained no entries for the period from

February 20, 2026 through February 23, 2026, and I believe the absence of entries for that period indicates that the user of Device 2 removed messages during that period in an effort to conceal the conversation. The examiner did not report any error during the logical extraction, and the extraction report for Device 2 is consistent with the report for Device 1 in all other respects that I reviewed for the purposes of this affidavit.

8. MARK TELLER chose the parking structure on Delmar Avenue as the meeting place and directed IRINA VOSS to bring the tickets there.
9. A contact saved on Device 2 under the name Alex is associated with the telephone number (555) 010-4471. I believe this contact is MARK TELLER.
10. Based on the foregoing, I submit that there is probable cause to believe that the devices contain evidence of the offenses described above.

Sworn to before me this 9th day of March, 2026.
